Water		50-60	*
Phosphates	PROPIETARY	12-17	*
Stabilizers	PROPIETARY	11-16	*
Solvents	PROPIETARY	9-14	*
Alkaline	PROPIETARY	6-9	*
Isopropanol	PROPIETARY	1-4	*
Pursuivants	PROPIETARY	2-5	*
Aroma	PROPIETARY	1-2	*

*The exact percentage (concentration)of composition has been withheld as a trade secret

PHYSICAL CHEMICAL PROPERTIES

Appearance: Transparent yellow liquid and aroma.

PH: 9

Stability: Very good.

Solubility: 10 : 1

WORKING CONDITIONS

1. Test the product before use in a hidden area to always check the color stability and fiber distortion.
2. Always dilute the product 10: 1 (10 parts of water per 1 part of BN100) for high traffic cleaning and heavily soiled areas such as hallways and specific stains. Never use **Air Craft Carpet Cleaning Spot & Stain Remover** undiluted.
3. Remove as much spilled material as possible prior to application of the solution. If the particles or spill is dust, vacuum with a normal vacuum cleaner. If it is liquid, dry with an absorbent towel. If the material is sticky, use a spatula or blunt knife to remove as much material as possible.
4. Apply the solution freely with applicator or spray to specific spots at 10: 1 dilution. Agitate at spot with spatula or hand brush, or with an absorbent towel.
5. For best results, use in combination with the **CRISTAL AIRCRAFT MB1**.
