Alkaline	PROPIETARY	14-23	*
Isopropanol	PROPIETARY	1-5	*
Aroma	PROPIETARY	1-2	*

*The exact percentage (concentration)of composition has been withheld as a trade secret

PHYSICAL CHEMICAL PROPERTIES

Appearance: Transparent yellow liquid and aroma.

PH: 9

Stability: Very good.

Solubility: Complete with water

WORKING CONDITIONS

1. Test the product before use in a hidden area to always check the color stability and fiber distortion.
2. Remove as much spilled material as possible prior to application of the solution. If the particles or spill is dust, vacuum with a normal vacuum cleaner. If it is liquid, dry with an absorbent towel. If the material is sticky, use a spatula or blunt knife to remove as much material as possible.
3. Apply **Air Craft Carpet Cleaning Gum Remover R-200** directly to gum or stain and leave for 2 to 3 minutes.
4. Use spatula or blunt knife to work in the gum or spot. Remove with spatula or blunt knife remaining of gum.
5. For best results, use in combination with the **CRISTAL AIRCRAFT MBI and Aircraft Carpet Stain Remover BN100**.
